

HYDRA Design by Ferrante Sabino

"Hydra is an outdoor shower system that comes from the need of donating to a unic body, in the most comfortable way, one of the primary and most pleasant needs that men and women can enjoy.

The silhouette shows a sinuous profile that recalls the harmony of nature. The sea world and its creatures inspired the architect designing and naming this unic shower."

EQUIPMENT :

Sippy showerhead 47x47 cm. Rain + 8 Body spray orientable shower, mist spray (see showerhead data sheet)
