

## MATCH POINT Design by Luca Sacchetti & Michela Ferrari

*"The dot (punto) it's both start and end of a story, an interruption of a speech, a conclusion of a path. The dot works as a gap indicator, a way of begining from scratch a fresh story, giving the chance to write a new "future". It works also as a discontinuous sincerity, a research of essentiality. A steel arch joins the two halves of a dot revealing what the sphere was hiding in its inside, just because there is nothing to conceal and nothing to destroy in the infinity flow of existence.*

*There's nothing else to say but.....*

*.....**Match Point!**"*

### EQUIPMENT :

Sippy showerhead 47x47 cm. Rain 8 led RGB - Stainless steel brushed (see showerhead data sheet)

Concealed thermostatic mixer

Controller for LED color control

(Note: Timer with the possibility to regulate the jet period on request)
