

ELLOS Design by Michela Ferrari & Luca Sacchetti

"Two arches with different trajectories but same origin base, encounter each other accidentally and by apparently randomness creating an idea or just an emotion.

"Ellos" gathers the experience of the past that faces the future in an instant, inspired by the colours of the nature in their own armony and contrast. These two arches are "ellos", two lifes among the rest."

EQUIPMENT :

Sippy showerhead 55x40 cm. Rain / Waterfall 4 led RGB - Stainless steel brushed (see showerhead data sheet)

Concealed thermostatic mixer

Controller for LED color control and shower functions (Rain / Waterfall)
